Subject: Gorge Dam Project - Special Use Permit Application for the Chuckery Area Geotechnical and Test Pit Investigation
Attachments: SUP_Chuckery Area Sampling_June 4 2021.pdf

Mike – Attached is the Special Use Permit Application for the Chuckery Area Geotechnical and Test Pit Investigation work scheduled for the week of June 21st. This work will consist of the utility clearance, standard penetration test (SPT) drilling, and borrow source test pit work. Unfortunately we were not able to schedule the cone penetrometer (CPT) drilling at the same time and another special use permit application will be submitted for that work. It looks like the CPT drilling will be in performed in mid-July but we are in the process of confirming the date.

Please let us know if you have any questions or need any additional information.

Cheers!

Bill
